DARE TO BE THE BEST

Russian group visits Moscow State Circus

On 3rd April, a group of year 10 Russian students were given the opportunity to visit the Moscow State Circus and watch 'Gostinitza Hotel of Curiosities'. The circus was in London only for three days, so the students were very lucky to get tickets for the performance as a part of the award for achievement in learning Russian. On the first day of their Easter holidays, they made their way to Richmond and were amazed by the sheer size of the tent, though it wasn't the UK's largest big top. The show went through a whole range of acts, from trapeze to tightrope walking and the clown managed to bring the entire crowd together, reducing everyone to tears of laughter. The weather was amazing, the students enjoyed the performance greatly, even buying souvenirs such as Matryoshka dolls (Russian nesting dolls); this will definitely be a trip that the students will remember for a long time.

VISIT TO UEL

Newham careers month took place in March and Rokeby took part by attending a workshop on careers in the civil service. The workshop took place at UEL, Stratford campus on the 30th of March. This was a unique opportunity for the selected group, as the workshop covered the roles of the civil service and the career opportunities it offers. Included in the workshop, were interactive sessions where current policy issues were discussed, role-play activities took place that put students in the shoes of civil servants advising ministers and information about career routes into the civil service were made available. Involved in the workshops were the following Year 10 boys: Emmanuel Beltazar 10E, Abdullah Habel 10O, Seif Eunice 10R, Edoardo Beltazar 10E, Tanjil Ahmed-Choudhury 10E, Mohamed Raihan Uddin 10R, Matas Genys 10B, Abdul-Raheem Hussein 10E and Osman Ali 10Y. Well done to the boys who showed their confidence in public speaking by airing their opinions on the topics discussed.

MATHS CORNER

Three brothers live in a farm. They agreed to buy new seeds: Adam and Ben would go and Charlie stayed to protect the fields. Ben bought 75 sacks of wheat in the market whereas Adam bought 45 sacks. At home, they split the sacks equally. Charlie had paid £1400 for the wheat. How much money did Ben and Adam get of the £1400, considering equal split of the sacks?

If you think you have solved it, see **Mr Fox** on Monday morning, correct answers win a **prize**.
