Key Worker definition:

1. Health and social care
2. Education and childcare - *includes nursery and teaching staff, social workers and those specialist education professionals who must remain active during the COVID-19 response to deliver this approach*
3. Key public services
4. Local and national government - *only includes those administrative occupations essential to the effective delivery of the COVID-19 response or delivering essential public services such as the payment of benefits, including in government agencies and arms length bodies.*
5. Food and other necessary goods
6. Public safety and national security
7. Transport - *includes those who will keep the air, water, road and rail passenger and freight transport modes operating during the COVID-19 response, including those working on transport systems through which supply chains pass*
8. Utilities, communication and financial services

If workers think they fall within the critical categories above they should confirm with their employer that, based on their business continuity arrangements, their specific role is necessary for the continuation of this essential public service.
